

Configure Feeder for Single Sign-On

Configuring Feeder for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to Feeder by using the enterprise credentials.

Prerequisite

Browser Requirements: Internet Explorer 11 and above

To configure Feeder for SSO by using SAML:

1. In a browser, type <https://feeder.co/login> and press **Enter**.
2. Type your Feeder admin account credentials (**E-mail** and **Password**) and click **Log in**.

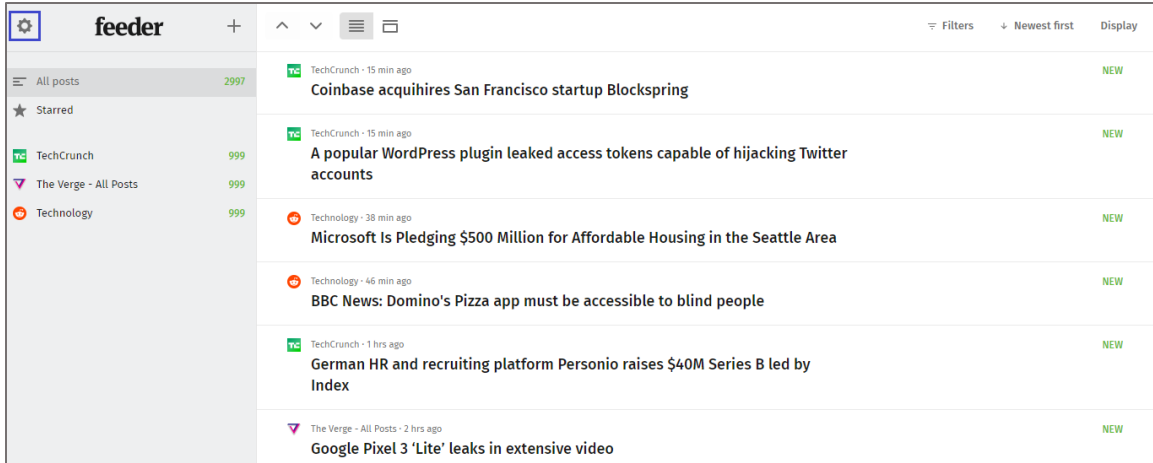

Log in

E-mail:

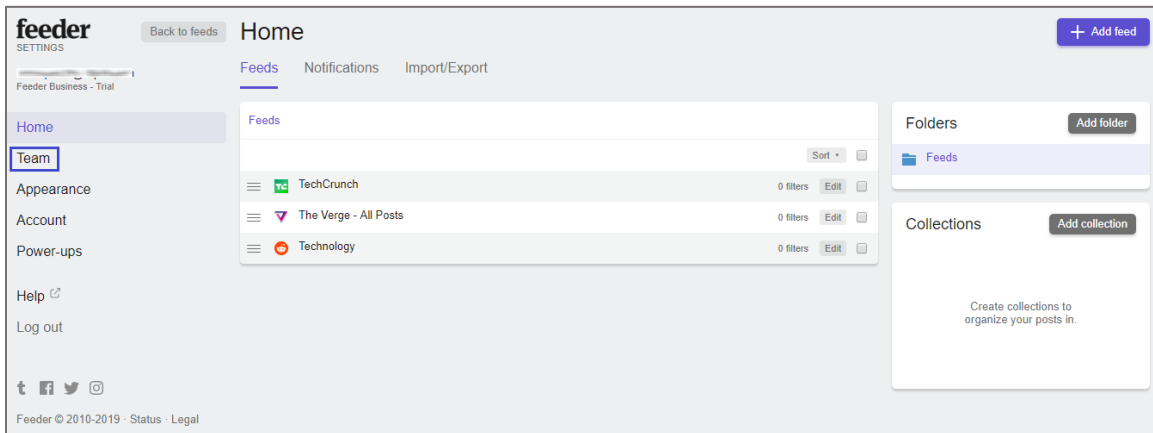

Password:

Log in

3. In the dashboard page, click the Settings icon in the top-left corner.

4. Click **Team** in the left pane.

5. In the **Team** page, click the **SSO / SAML** tab and enter the values for the following fields:

Required Information	Description
Domain	NetScaler
SSO Target URL	IdP logon URL
Certificate*	Copy and paste the IdP certificate. The IdP certificate must begin and end with -----Begin Certificate----- and -----End Certificate----- Note: The IdP metadata is provided by Citrix and can be accessed from the link below. The link is displayed while configuring SSO settings for your app. <a href="https://gateway.cloud.com/idp/saml/<citrixcloudcust id>/<app id>/idp_metadata.xml">https://gateway.cloud.com/idp/saml/<citrixcloudcust id>/<app id>/idp_metadata.xml
