

Configure Frontify for Single Sign-On

Configuring Frontify for single sign-on (SSO) enables administrators to manage users of Citrix Gateway service. Users can securely log on to Frontify by using the enterprise credentials.

To configure Frontify for SSO by using SAML:

1. In a browser, type <https://app.frontify.com/auth/> and press **Enter**.
2. Enter your Frontify admin account credentials (**Email** and **Password**) and click **Sign in**.

The image shows a login form with two input fields and a button. The first field is labeled 'Email:' and contains a blurred email address. The second field is labeled 'Password:' and contains a series of dots representing a masked password. Below the fields is a dark blue button with the text 'Sign in' in white.

3. To enable and configure SSO, the user must contact the Frontify support team and provide them with the following details:

Required Information	Description
Endpoint URL	IdP logon URL
Certificate	The IdP metadata is provided by Citrix and can be accessed from the link below: <a href="https://ssb4.mgmt.netscalergatewaydev.net/idp/saml/templatetest/<app_id>/idp_metadata.xml">https://ssb4.mgmt.netscalergatewaydev.net/idp/saml/templatetest/<app_id>/idp_metadata.xml

Note: The support team configures the service provider (SP) from the backend.
