

Configure Qubole for Single Sign-On

Configuring Qubole for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to Qubole by using the enterprise credentials.

Prerequisite

Browser Requirements: Internet Explorer 11 and above

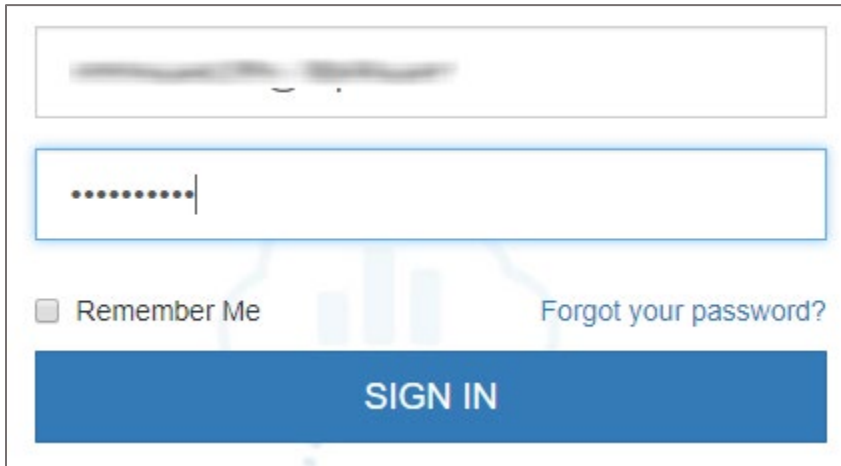

To configure Qubole for SSO by using SAML:

1. In a browser, type <https://login.qubole.com/> and press **Enter**.
2. Type your Qubole email address and click **Next**.

The screenshot shows the Qubole login interface. At the top left is the Qubole logo with the tagline "ELEMENTAL TO BIG DATA". Below the logo, the text "Sign In" is displayed, followed by "using your email to continue". There is a text input field labeled "Email *" which is highlighted in yellow. Below the input field is a blue button labeled "Next".

3. Type your Qubole password and click **SIGN IN**.

The image shows a login form with the following elements:

- A blurred text input field for the username.
- A password input field with a blue border and a cursor, containing several dots.
- A checkbox labeled "Remember Me".
- A link labeled "Forgot your password?".
- A large blue button labeled "SIGN IN".

4. To enable and configure SSO, the user must contact Qubole support team and provide them with the following:

Required Information	Description
SAML Single SignOn endpoint	IdP logon URL
SAML Single SignOn certificate	IdP certificate
SAML Single SignOn fingerprint	SHA256 fingerprint
Email/domain	Domain email ID

Note: The support team will configure the SP from the backend.
