

Configuring Rollbar

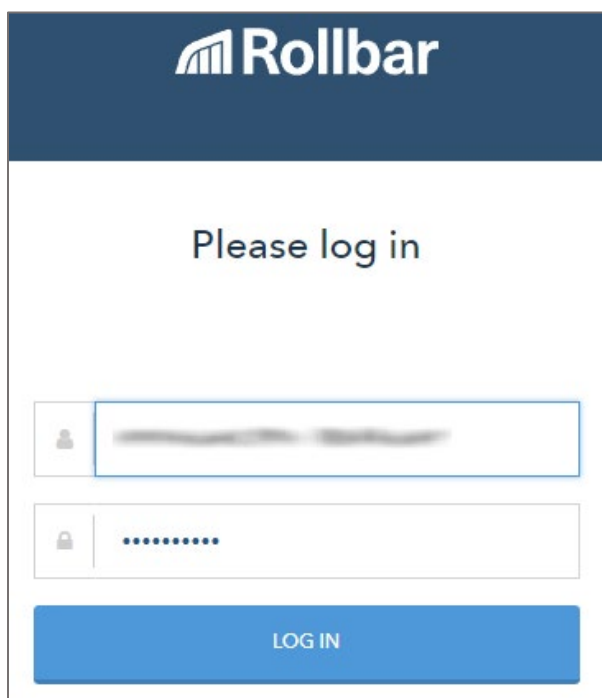

Configuring Rollbar for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to Rollbar by using the enterprise credentials.

Prerequisite

Browser Requirements: Internet Explorer 11 and above

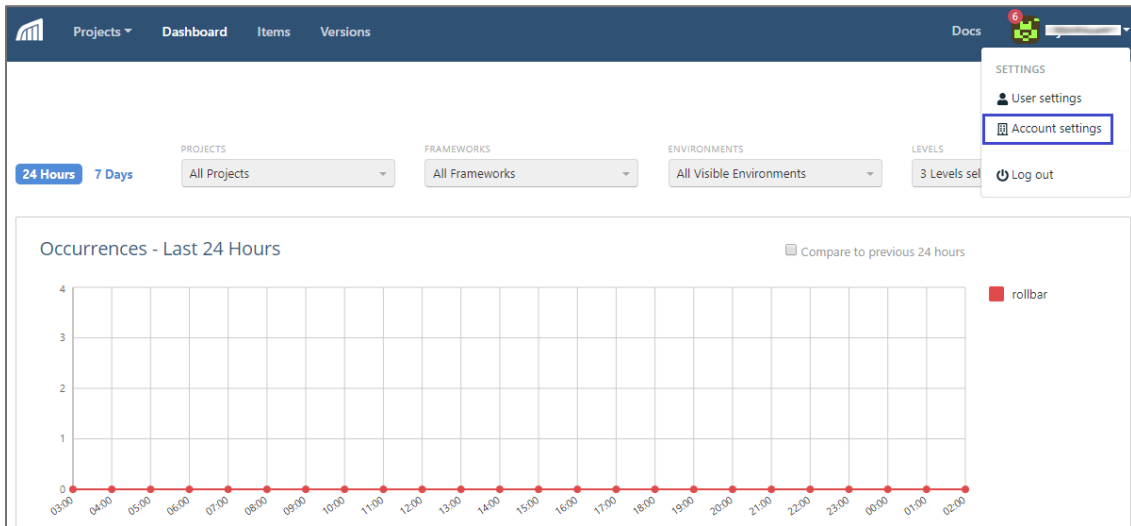

To configure Rollbar for SSO by using SAML:

1. In a browser, type <https://rollbar.com/> and press **Enter**.
2. Type your Rollbar admin account credentials (**Email** and **Password**) and click **LOG IN**.

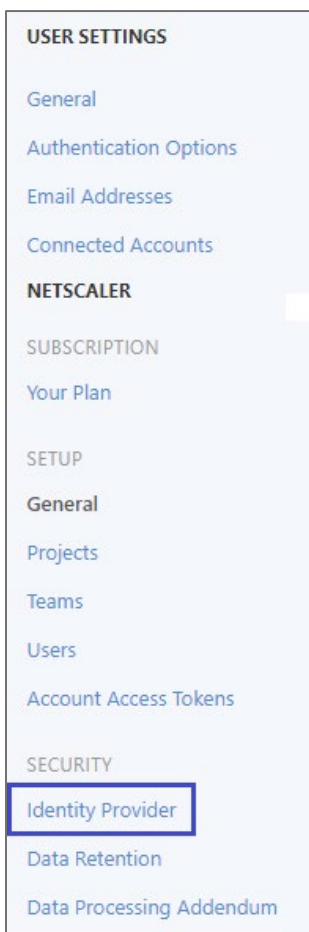

The screenshot shows the Rollbar login interface. At the top, there is a dark blue header with the Rollbar logo. Below the header, the text "Please log in" is centered. There are two input fields: the first is for the email address, and the second is for the password, which is masked with dots. A blue "LOG IN" button is positioned below the password field.

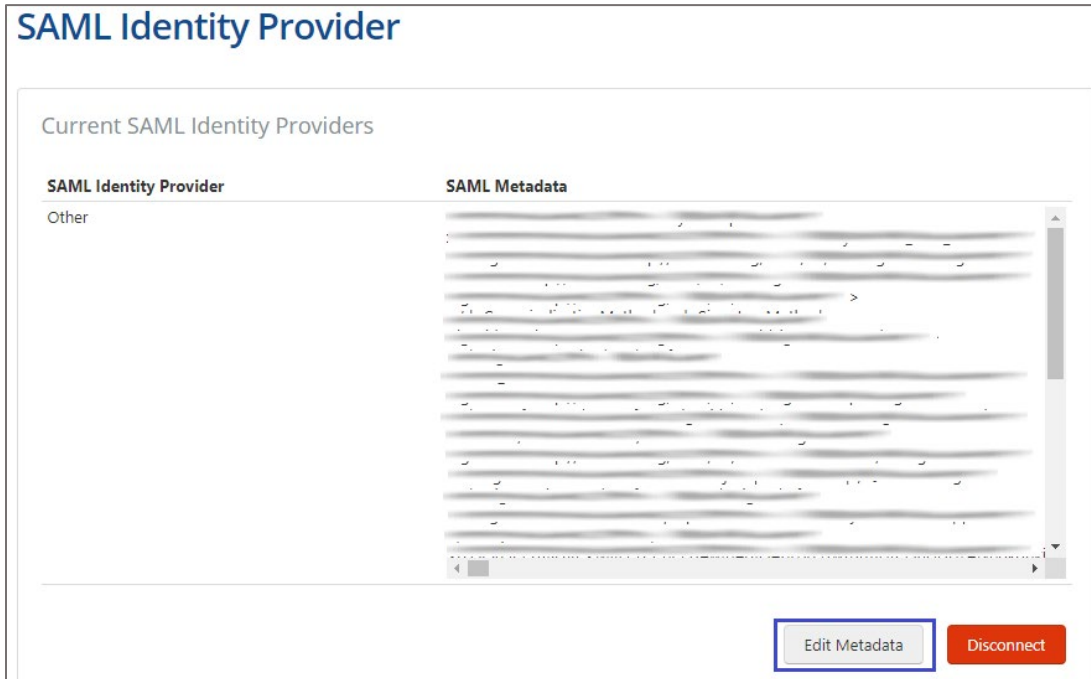

3. In the top-right corner, click the username and select **Account settings** from the drop-down list.

4. In the left panel, scroll down and click **Identity Provider** under **SECURITY**.

- In the **SAML Identity Provider** page, click **Edit Metadata**.

- In the pop-up window, enter the SAML metadata and click **Save**.

Field Name	Description
SAML metadata	Copy and paste the metadata URL. The metadata URL is provided by Citrix and can be accessed from the link below: https://ssb4.mgmt.netscalergatewaydev.net/idp/saml/templatetest/idp_metadata.xml
