

Configuring StatusCast

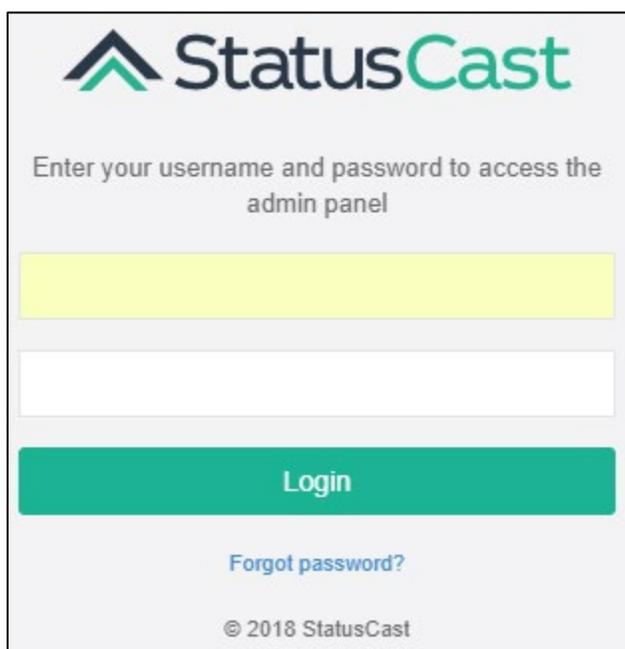

Configuring StatusCast for SSO enables administrators to manage their users using Citrix Gateway. Users can securely log on to StatusCast using their enterprise credentials.

To configure StatusCast for SSO through SAML, follow the steps below:

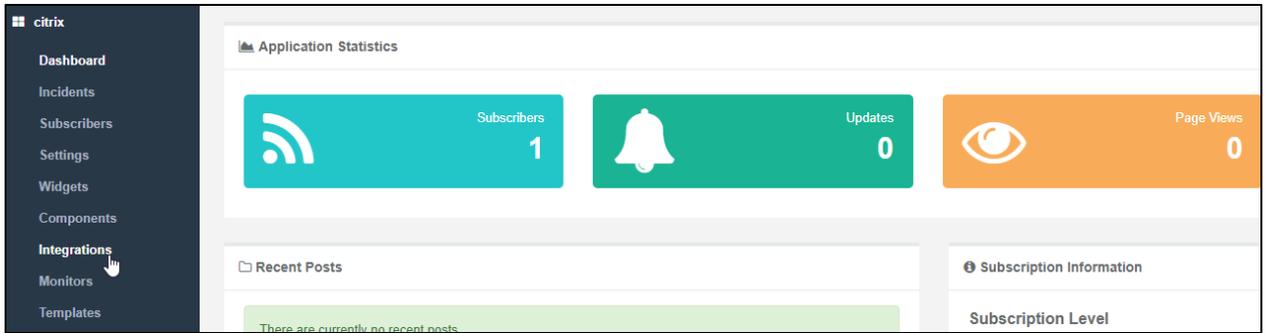

1. In a browser, type <https://statuscast.com/> and press **Enter**.
2. Contact the StatusCast support team, for your admin URL.

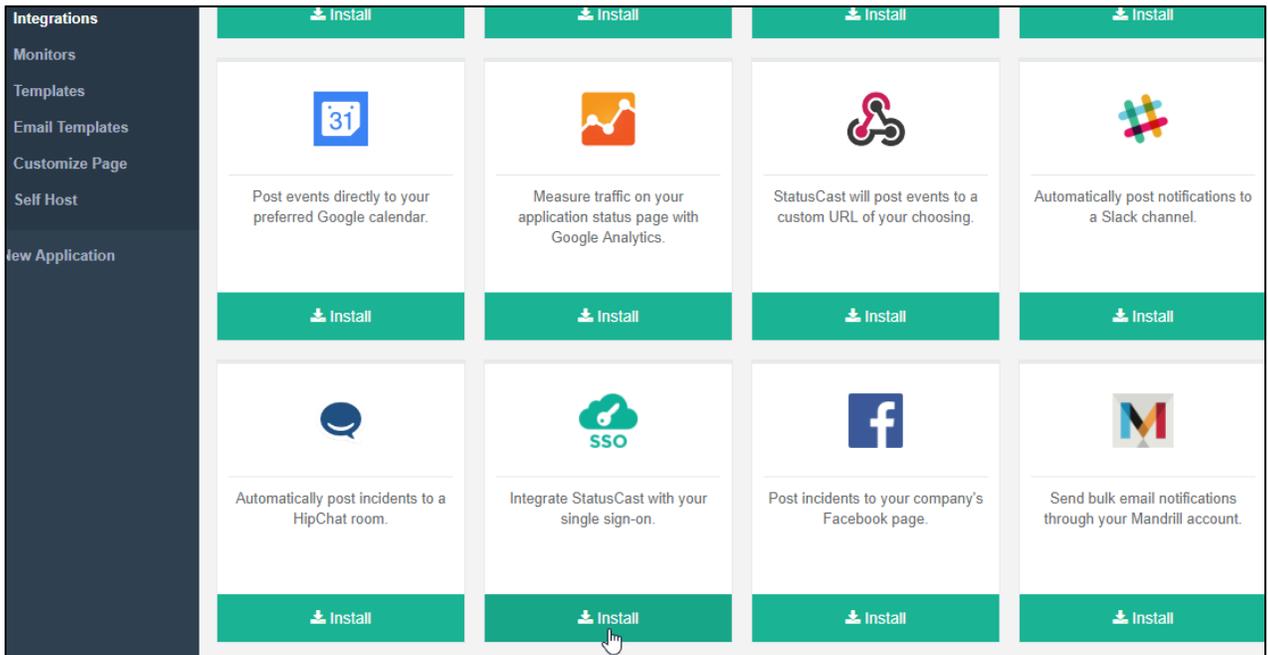

3. Click on the login URL provided by the StatusCast support team, for example, <https://<domainname>.statuscast.com/admin>.
4. Type your **Username**, **Password**, and click **Login**.

A screenshot of the StatusCast login form. The form is titled "StatusCast" and includes the instruction "Enter your username and password to access the admin panel". It features a yellow highlighted input field for the username, a white input field for the password, and a green "Login" button. Below the login button is a link for "Forgot password?" and a copyright notice "© 2018 StatusCast".

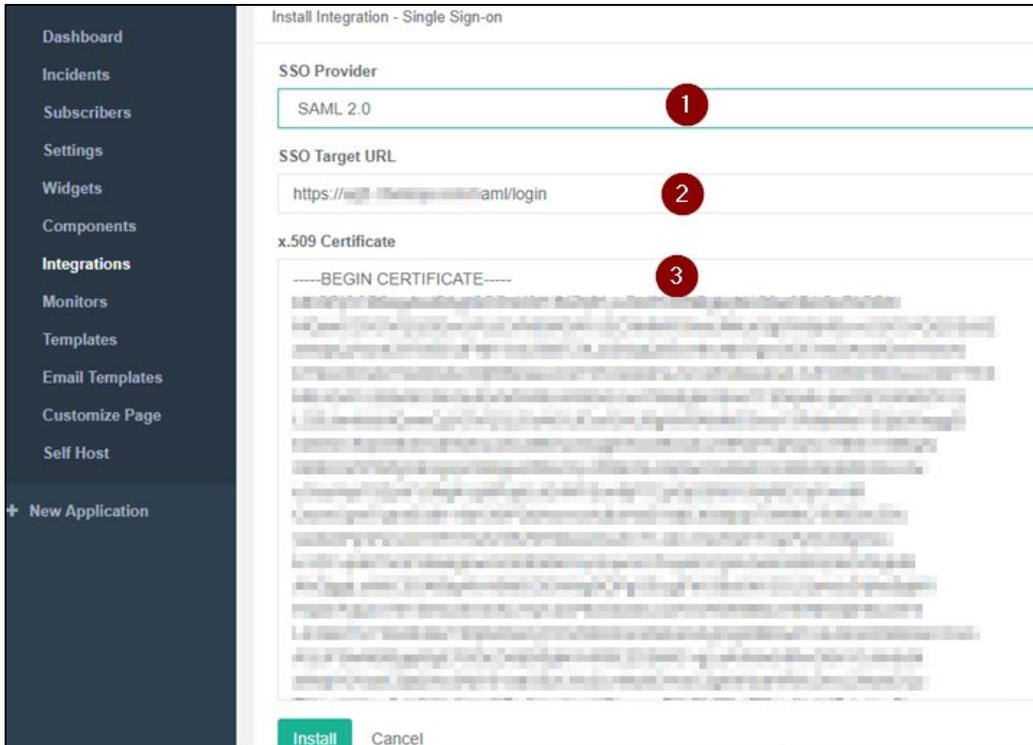

5. On the Landing page, click **Integrations** in the left pane.

6. On the Integrations page, in the **SSO** section, click **Install**.

7. On the Install Integration page, type the following information:

- i. **SSO Provider:** From the drop-down list, select SAML 2.0
- ii. **SSO Target URL:** enter the IdP URL, SAML 2.0 endpoint, for example, <https://example.com/saml/login>
- iii. **X.509 Certificate:** To upload the certificate:
 - a. Remotely access your NetScaler instance using PuTTY.
 - b. Navigate to /nsconfig/ssl folder (using shell command `cd /nsconfig/ssl`) and press **Enter**.
 - c. Type `cat <certificate-name>` and press **Enter**.
