

Configuring Testable

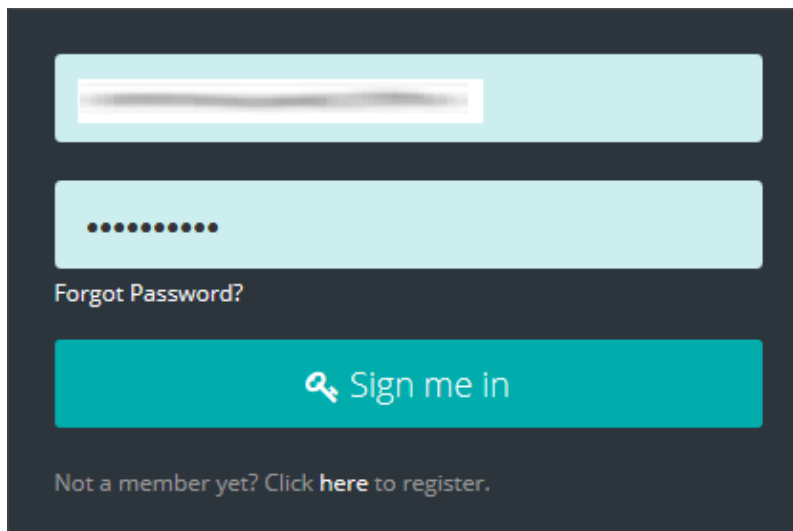

Configuring Testable for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to Testable by using the enterprise credentials.

Prerequisite

Browser Requirements: Internet Explorer 11 and above

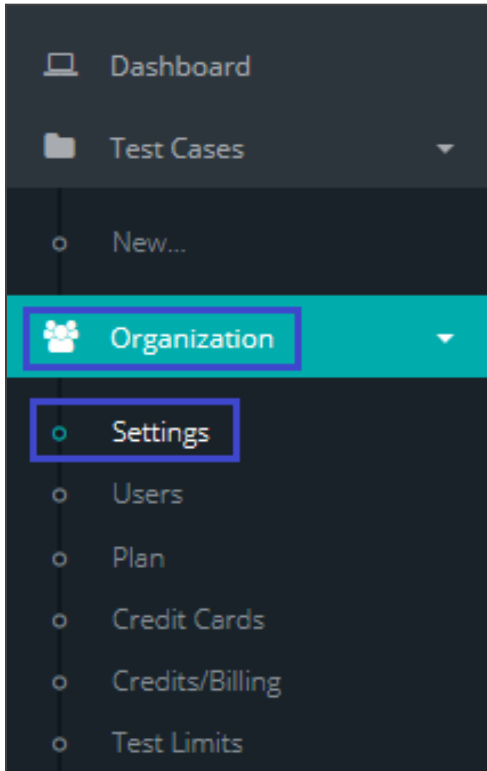

To configure Testable for SSO by using SAML:

1. In a browser, type <https://testable.io/> and press **Enter**.
2. Type your Testable admin account credentials (**Email Address** and **Password**) and click **Sign me in**.

The screenshot shows the Testable login interface. It features a dark background with light blue input fields. The top field is for the email address, followed by a password field with masked characters. Below the password field is a link for 'Forgot Password?'. A prominent teal button with a magnifying glass icon and the text 'Sign me in' is centered below the password field. At the bottom, there is a link for 'Not a member yet? Click here to register.'

3. In the left panel, navigate to **Organization > Settings**.

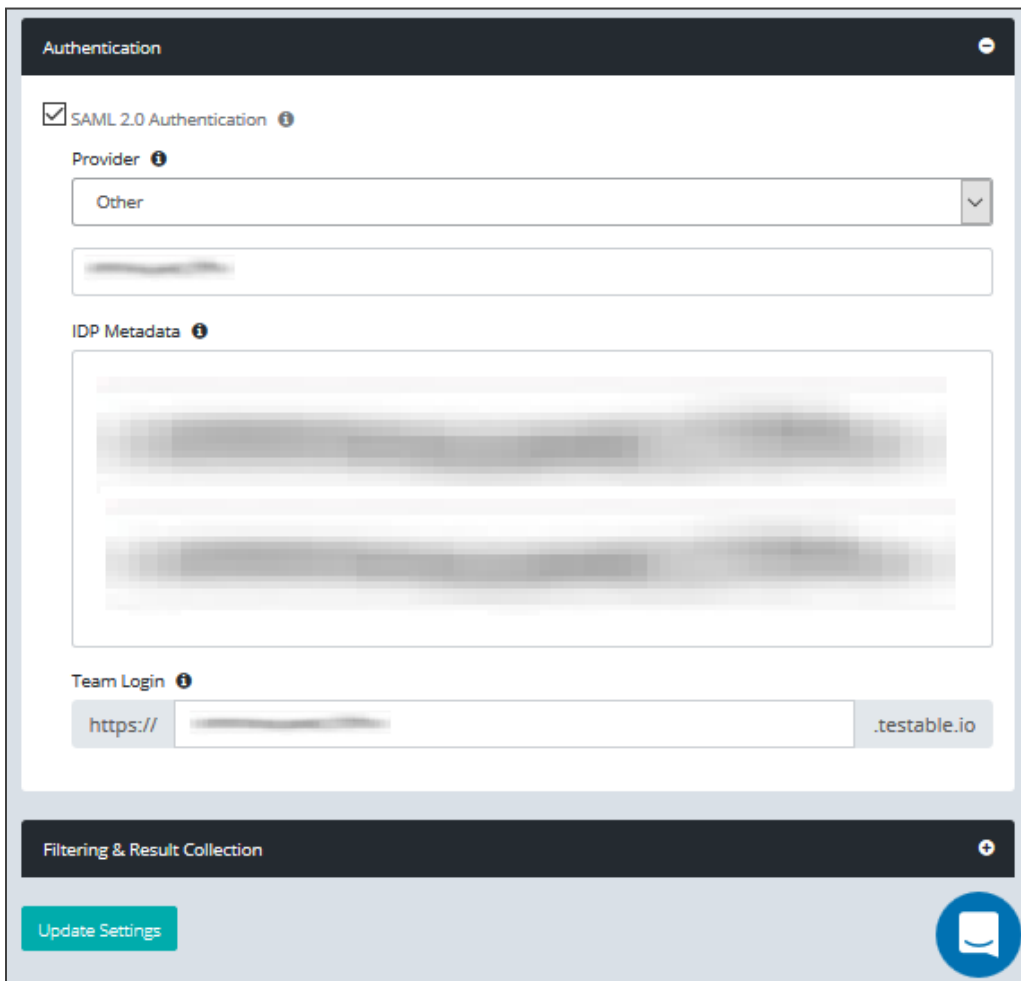

4. In the **Settings** page, click **Authentication**.

- In the **Authentication** section, select the **SAML 2.0 Authentication** check box and enter the values for the following fields.

Field Name	Description
Provider	Select Other from the drop-down list.
SAML Provider	Identity Provider name
IDP Metadata	Copy and paste the IdP certificate. The IdP certificate must begin and end with -----Begin Certificate----- and -----End Certificate----- Note: The IdP Certificate is provided by Citrix and can be accessed from the following link: https://ssb4.mgmt.netscalergatewaydev.net/idp/saml/templatetest/idp_metadata.xml
Team Login	Login subdomain

- Finally, click **Update Settings**.
