Configure Expiration Reminder for Single Sign-On

Configuring Expiration Reminder for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to Expiration Reminder by using the enterprise credentials.

Prerequisite

Browser Requirements: Internet Explorer 11 and above

To configure Expiration Reminder for SSO by using SAML:

1. In a browser, type https://app.expirationreminder.net/account/login and press **Enter**.

2. Type your Expiration Reminder admin account credentials (**Email** and **Password**) and click **Log in**.

3. In the dashboard page, click the user account in the top-right corner and select **Manage**.

4. In the **Manage Account Settings** page, click the **Configure SSO/SAML**.

5. In the **SSO/SAML** page, enter the values for the following fields:

Required Information	Description
Issuer	Issuer URL
Single Sign On (SSO) url	IdP logon URL
Single Log Out (SLO) url	IdP logout URL
X.509 certificate	Copy and paste the IdP certificate. The IdP certificate must begin and end with - - - - -Begin Certificate- - - - - and - - - - -End Certificate- - - - - **Note**: The IdP metadata is provided by Citrix and can be accessed from the link below. The link is displayed while configuring SSO settings for your app. https://gateway.cloud.com/idp/saml/<citrixcloudcust_id>/<app_id>/idp_metadata.xml
Login alias	NetScaler
Enable for Users	Turn on the toggle button.

6. Finally, click **Update**.
