Configuring Front

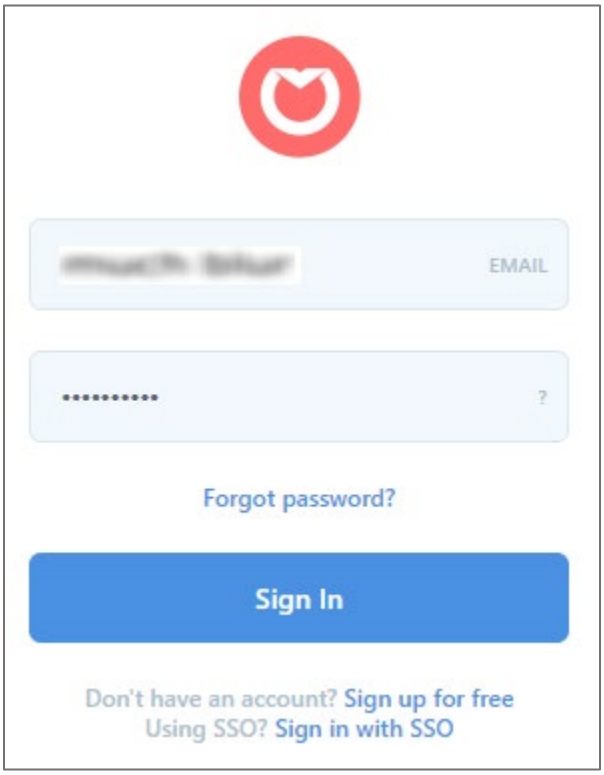
Configuring Front for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to Front by using the enterprise credentials.

Prerequisite

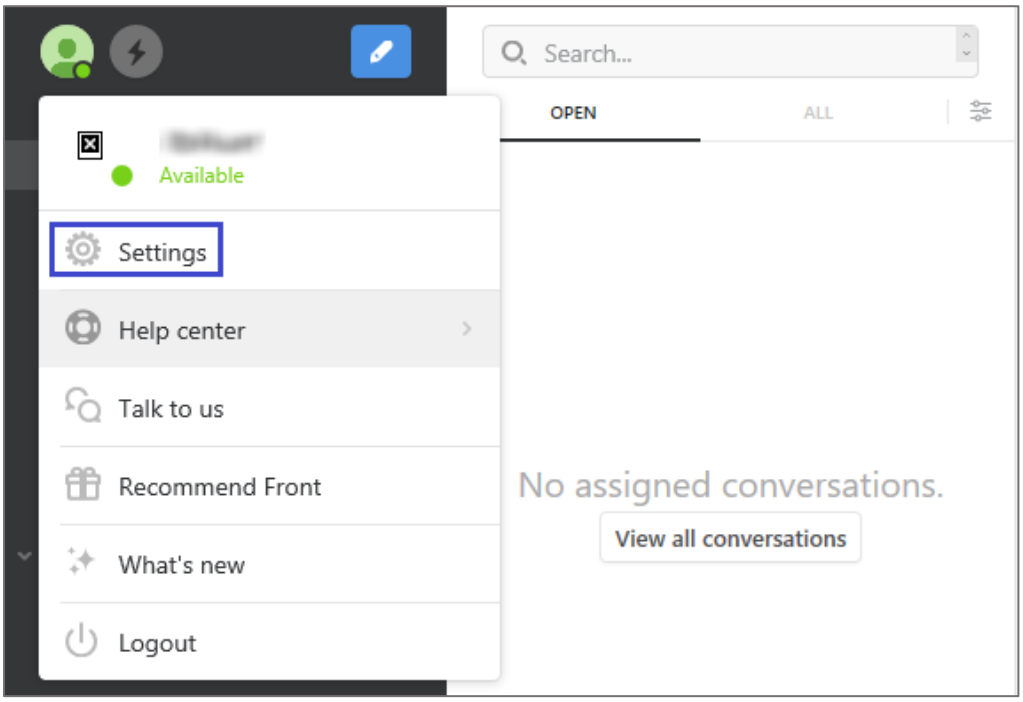
Browser Requirements: Internet Explorer 11 and above

To configure Front for SSO by using SAML:

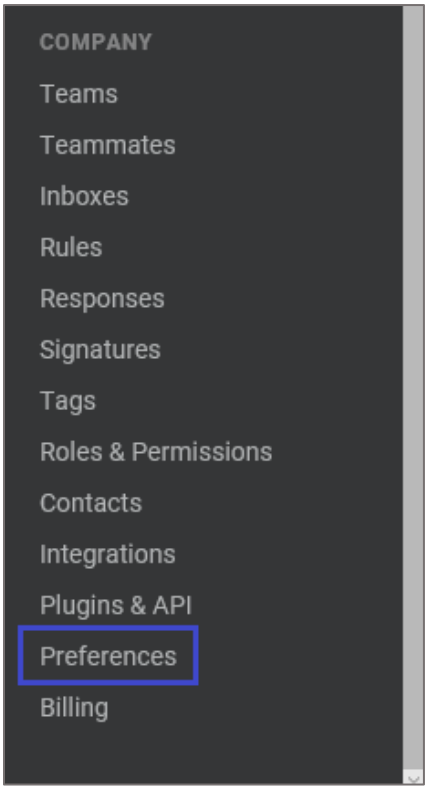
1. In a browser, type https://frontapp.com/ and press **Enter**.
2. Type your Front admin credentials (**Your email** and **Your password**) and click **Sign In**.



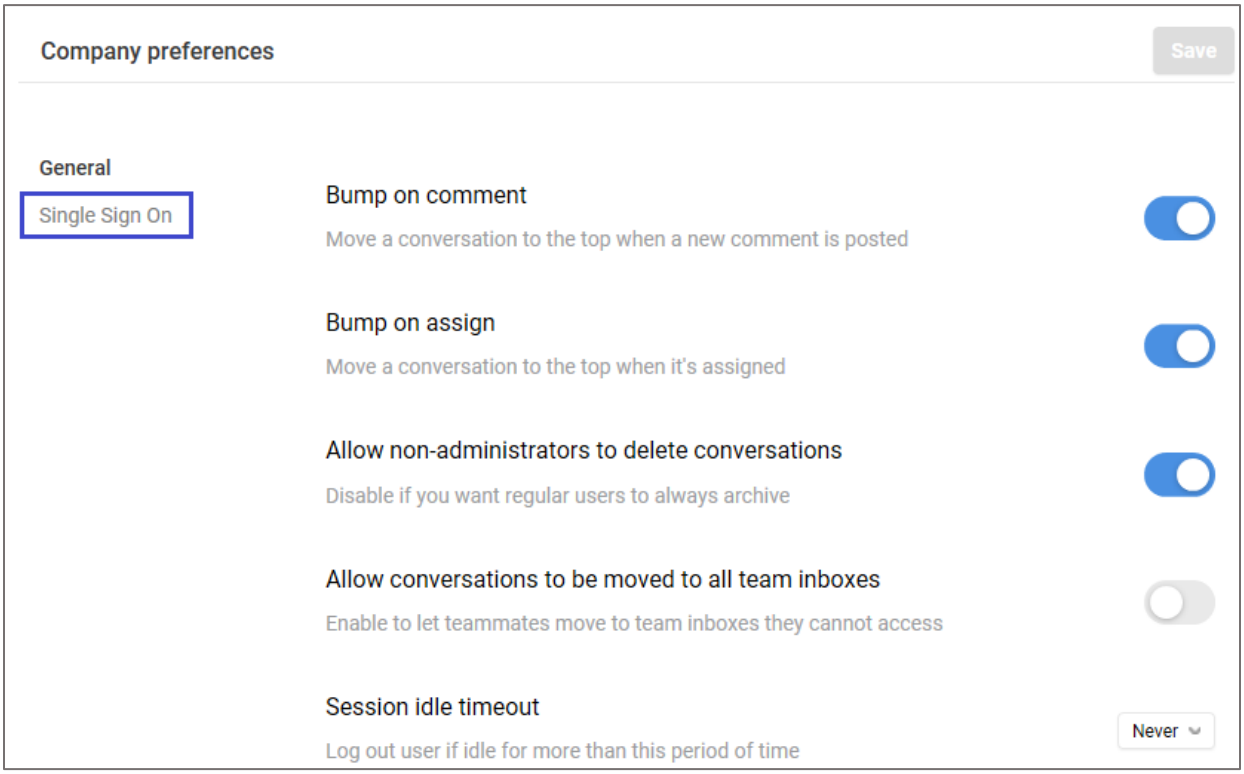
3. In the top-left corner, click the user account icon and select **Settings** from the drop-down menu.



4. In the left panel, scroll down and click **Preferences** under **COMPANY**.



5. In the **Company preferences** page, click **Single Sign On**.



6. Scroll down and enter the values for the following fields in **SAML Integration**:

Field Name	Description
SSO	Select **SAML** from the drop-down list.
ENTRY POINT	IdP logon URL
Authentication request binding	Select **HTTP Post** from the drop-down list.
Signing Certificate	Copy and paste the IdP certificate. The IdP certificate must begin and end with - - - - -Begin Certificate- - - - - and - - - - -End Certificate- - - - - **Note:** The IdP Certificate is provided by Citrix and can be accessed from the link below: https://ssb4.mgmt.netscalergatewaydev.net/idp/saml/templatetest/idp_metadata.xml
