

# Configure GroupMap for Single Sign-On

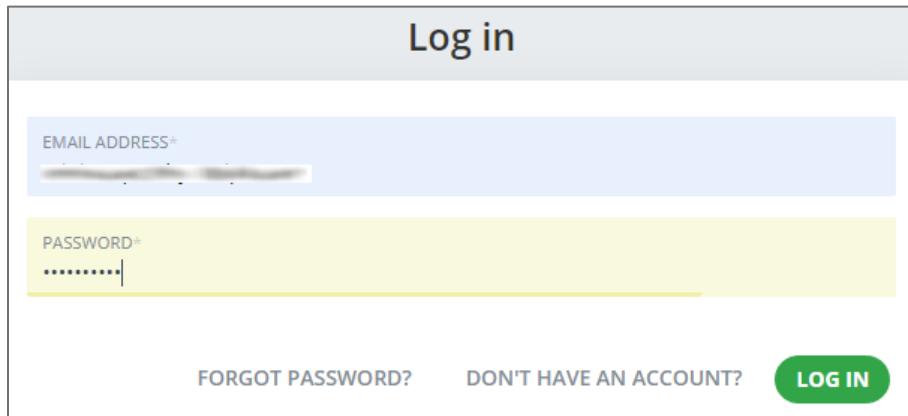

Configuring GroupMap for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to GroupMap by using the enterprise credentials.

## Prerequisite

Browser Requirements: Internet Explorer 11 and above

### To configure GroupMap for SSO by using SAML:

1. In a browser, type <https://login.groupmap.com/> and press **Enter**.
2. Type your GroupMap admin account credentials (**EMAIL ADDRESS** and **PASSWORD**) and click **LOG IN**.

The image shows the GroupMap login interface. It features a light gray header with the word 'Log in' in a dark gray font. Below the header is a light blue input field labeled 'EMAIL ADDRESS\*' with a placeholder text that is mostly obscured by a redacted area. Underneath is a light green input field labeled 'PASSWORD\*' with a placeholder of '.....'. At the bottom of the form are three links: 'FORGOT PASSWORD?', 'DON'T HAVE AN ACCOUNT?', and a green 'LOG IN' button.

3. To enable and configure SSO, the user must contact GroupMap support team and provide them with the IdP metadata.

Required Information	Description
Certificate	The IdP metadata is provided by Citrix and can be accessed from the link below. The link is displayed while configuring SSO settings for your app. <a href="https://gateway.cloud.com/idp/saml/&lt;citrixcloudcust_id&gt;/&lt;app_id&gt;/idp_metadata.xml">https://gateway.cloud.com/idp/saml/&lt;citrixcloudcust_id&gt;/&lt;app_id&gt;/idp_metadata.xml</a>

**Note:** The support team will configure the SP from the backend.
