

Configure Tenable.io for Single Sign-On

Configuring Tenable.io for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to Tenable.io by using the enterprise credentials.

Prerequisite

Browser Requirements: Internet Explorer 11 and above

To configure Tenable.io for SSO by using SAML:

1. In a browser, type <https://cloud.tenable.com/app.html> and press **Enter**.
2. Type your Tenable.io admin account credentials (**Username** and **Password**) and click **Sign In**.

3. To enable and configure SSO, the user must contact Tenable.io support team and provide them with the following:

Required Information	Description
IdP metadata file	<p>Copy and paste the IdP certificate. The IdP certificate must begin and end with -----Begin Certificate----- and -----End Certificate-----</p> <p>Note: The IdP metadata is provided by Citrix and can be accessed from the link below. The link is displayed while configuring SSO settings for your app. <a href="https://gateway.cloud.com/idp/saml/<citrixcloudcust id>/<app id>/idp_metadata.xml">https://gateway.cloud.com/idp/saml/<citrixcloudcust id>/<app id>/idp_metadata.xml</p>

Note: The support team will configure the SP from the backend.
