Contents

1. Product Download from the Web 1

Chapter 1. Product Download from the Web

The product and its documentation are available from <https://www.citrix.com>.

If you have not yet registered for a Citrix account, click the appropriate new account link at the top-left of the login page enter your details.

To ensure the integrity and authenticity of the download, execute the following procedure.

Note:

You do not need to obtain a license prior to downloading the product. For information on licenses, see the XenServer Installation Guide 6.0.

1. Login to www.citrix.com.
2. Enter the following URL: <http://www.citrix.com/downloads/xenserver/product-software/xenserver-6.0.2-common-criteria>
3. The **XenServer 6.0.2 Common Criteria Version** page is displayed.

This page provides the downloads for the XenServer 6.0.2 Base Installation ISO, the Common Criteria specific version of XenCenter 6.0.2, Common Criteria documentation, source and checksums. Click the **Download** button to download the required component.

Note:

When downloading, Citrix recommends that you verify the *https* certificate details.

Checksums

Before installing XenServer, verify the integrity of the downloaded ISO file. From the Common Criteria Software list, choose either **XenServer 6.0.2 MD5 Checksum** or **XenServer 6.0.2 SHA256 Checksum**, and then click **Download**, and on the following page click HTTPS DOWNLOAD. Then verify the ISO against the following. For example on Linux:

```
% md5sum -c XenServer-6.0.2-cc-install-cd.iso.md5
XenServer-6.0.2-install-cd.iso OK
```

or

```
% sha256sum -c XenServer-6.0.2-cc-install-cd.iso.sha256
XenServer-6.0.2-install-cd.iso OK
```

Note:

After Citrix engineering and website maintenance teams publish the product and its documentation, they check the download against the checksum as listed in the configuration list, ensuring that the versions are correct and checked for damage.

Hotfixes

Hotfixes are stored on pages available from <https://support.citrix.com/product/xens/v6.0.2/>

Note:

As with the product itself, Citrix engineering and website maintenance teams publish the hotfixes, ensuring that the versions are correct and checked for damage.
