

# Configure ProductBoard for Single Sign-On

Configuring ProductBoard for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to ProductBoard by using the enterprise credentials.

## Prerequisite

Browser Requirements: Internet Explorer 11 and above

## To configure ProductBoard for SSO by using SAML:

1. In a browser, type [https://<customer\\_domain>.productboard.com/](https://<customer_domain>.productboard.com/) and press **Enter**.
2. Type your ProductBoard admin account credentials (**E-MAIL** and **PASSWORD**) and click **Sign me in**.

The screenshot shows the ProductBoard login interface. At the top left is the ProductBoard logo, which consists of a colorful geometric shape followed by the text 'productboard'. Below the logo is a blue button with the Google 'G' icon and the text 'Use Google Account'. Underneath this is the text 'OR SIGN WITH'. There are two input fields: one labeled 'E-MAIL' with a blurred email address, and another labeled 'PASSWORD' with a series of dots. Below the password field is a checkbox labeled 'Remember me 7 days' and a link that says 'Forgot your password?'. At the bottom is a blue button with the text 'Sign me in!'.

- In the dashboard page, click the user account in the lower-left corner and select **SETTINGS**.

- In the **Project settings** page, scroll down and turn on the Enforce SAML SSO toggle button under Single Sign On.

- Enter the values for the following fields:

Required Information	Description
MANIFEST URL	IdP logon URL
NAME	Organization name

- Finally, click **Save & authorize**.
